**Statement by Lora Pellegrini, President and CEO of the Massachusetts Association
of Health Plans, on Narcan Coverage**
March 31, 2023

“MAHP member health plans are committed to ensuring access to comprehensive mental health and substance use support for their members. The health plans are evaluating the announcement made by the FDA earlier this week regarding Narcan, and many have indicated that at this time they plan to continue to cover Narcan in accordance with their current policies. As further regulatory guidance is released, health plans will continue to assess their coverage policies.”
