MAHP
MASSACHUSETTS ASSOCIATION of HEALTH PLANS

MAHP Member Plans Community Giving Initiatives 2025 Report

ENTER

Dear Friends,

Across Massachusetts, health plans are making a meaningful difference in the communities they serve, not only by providing access to affordable, high-quality health care, but also by investing in the resources and supports that help people live healthier lives.

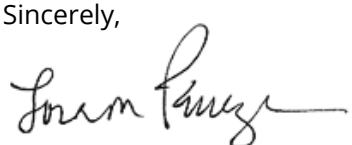

I am proud to share the Massachusetts Association of Health Plans' **2025 Community Giving Initiatives Report**, highlighting the continued commitment of our member plans to the people and communities they serve. Through charitable giving, volunteerism, and longstanding partnerships, health plans are strengthening local resources and helping to meet some of our most pressing needs.

The initiatives featured in this report reflect the breadth of that work, from advancing health equity and expanding access to affordable, community-based care, to supporting youth and veteran mental health, housing stability, food security, and healthy aging. Member plans are also investing in education, health and wellness, and programs that address gaps in care. These investments are particularly important at a time when rising costs and growing demands on community resources are placing significant pressure on individuals, families, and the organizations that serve them. **Health plans recognize that good health depends on more than access to medical services and that meaningful progress requires strong partnerships and a shared commitment to improving health outcomes and making health care more affordable**.

I encourage you to explore this report and learn more about the many ways MAHP member health plans are giving back. I am especially proud of the health plan employees whose generosity, dedication, and volunteer service bring these initiatives to life.

Together, their efforts are helping to build a healthier, more equitable Commonwealth where everyone has the opportunity to thrive.

Sincerely,

Lora M. Pellegrini
President and CEO
Massachusetts Association of Health Plans

Executive Summary: 2025 Community Giving Initiatives

Investing in Healthier, Stronger Communities Across Massachusetts

Massachusetts health plans play an important role in the health and well-being of the communities they serve, extending well beyond providing insurance coverage. Through charitable giving, community partnerships, and employee volunteerism, MAHP member health plans invest in programs and services that address barriers to care, promote health equity, and improve quality of life across the Commonwealth.

In 2025, member plans supported a broad range of initiatives focused on some of Massachusetts' most pressing health and social challenges. These investments reflect a shared understanding that access to affordable, high-quality health care is essential, but that good health also depends on stable housing, nutritious food, strong community connections, and access to essential services.

Key Community Giving Priorities

🏥 **Affordable Health Care and Health Equity:** Expanding access to affordable services, addressing disparities, and supporting populations that face barriers to care.

🧠 **Mental and Behavioral Health:** Strengthening youth mental health services, supporting veterans' mental health and well-being, and investing in community-based behavioral health resources.

🏠 **Housing Stability and Food Security:** Supporting affordable housing, homelessness prevention, food assistance, and nutrition programs that address fundamental health-related needs.

👵 **Elder Care and Healthy Aging:** Helping older adults maintain independence, age safely in their homes, access community-based services, and remain socially connected.

🤝 **Community-Based Health Care and Closing Gaps in Care:** Partnering with local providers and organizations to expand access to preventive services, improve care coordination, and reach underserved populations.

🌱 **Health, Wellness, and Education:** Promoting healthy lifestyles, supporting educational opportunities, and investing in programs that strengthen community well-being.

The Value of Community Partnerships

A defining feature of these initiatives is the strength of the partnerships behind them. MAHP member health plans work alongside nonprofit organizations, community health centers, schools, food banks, housing organizations, and other local partners to respond to community needs and sustain essential services.

These contributions extend beyond financial support. Health plan employees volunteer thousands of hours, share their expertise, and participate in initiatives that directly benefit Massachusetts residents. Together, these efforts help strengthen the organizations and networks that communities depend on.

Building a Healthier Commonwealth

At a time when rising health care costs and growing demands on community resources are creating significant challenges, MAHP member health plans remain committed to investing in solutions that improve access, address health-related social needs, and support healthier lives. The initiatives highlighted in this report demonstrate the meaningful contributions health plans make every day and their ongoing commitment to building a healthier, more equitable, and more resilient Commonwealth.

Community Giving Program

At CVS Health, they are guided by their company purpose: Bringing our heart to every moment of your health. ® Grounded in four pillars - Healthy People, Healthy Business, Healthy Community and Healthy Planet - Healthy 2030 is inclusive of their broader enterprise and the impact they can drive as a health care leader.

They impact the health and well-being of their communities through collaborations and investments that advance health equity and improve health outcomes, ensuring everyone has a fair and just opportunity to be as healthy as possible. They center their grant-making investments in under-served communities in collaboration with national, regional, and local organizations focused on women's health, mental health, heart health, health-related social needs, disaster recovery and relief, scholarships, and funding for nonprofits in regional hubs.

2025 Community Giving Initiatives

Healthy Aging - To address the needs of an aging population, the Foundation supports multi sector, community-based projects working to strengthen systems of care at the local level. These projects simplify a complex care navigation process and bridge critical gaps in local health care and social systems to help older adults lead healthy lives. Meanwhile, the Foundation also invests in the well-being of caregivers, so the entire ecosystem around older adults can thrive.

Women's Health - CVS Health, and the Foundation, focus on the unique health care needs for women by expanding relationships with community-based organizations with a specific focus on improving maternal health outcomes. Through collaborations with nonprofits and local organizations, together with the Foundation, they made it possible for expectant and new mothers to access essential support, from prenatal education and doula services to postpartum mental health resources.

Together, they created meaningful, measurable impact — improving access and delivering compassionate care through every stage of pregnancy and beyond.

In 2025, CVS Health and the Foundation deepened its commitment to women's health by investing in programs designed to meet women exactly where they are — in their homes, neighborhoods and communities. From Rhode Island to California, CVS Health and the Foundation's support helped bring compassionate, culturally aligned care to mothers during some of the most pivotal moments in their lives.

Moms who face barriers in the form of transportation, childcare or time can now receive care in comfortable, accessible spaces.

Their funding also supported the expansion of the hospital's successful Postpartum Hypertension Equity Program, which offers remote blood pressure monitoring to patients at risk of postpartum hypertension. Through a two-year grant to the American Heart Association, they helped to expand hypertension education and postpartum blood pressure monitoring in high-risk communities. These efforts engaged 1,800 women in monitoring their blood pressure at home during and after pregnancy. They reported feeling more informed, supported and confident — a powerful reminder of what happens when community programs and clinical care work hand in hand.

Their work with March of Dimes continued to strengthen the community-based doula workforce. Doulas provide trusted, culturally aligned, continuous support — helping ensure mothers feel genuinely seen and supported through pregnancy and birth. Through this program, they:

- Trained 250+ new doulas
- Supported 1,400+ new clients and 1,100 labor and delivery experiences
- Saw 94-96% retention, year over year

In collaboration with Massachusetts General Hospital in Boston, they helped transform the Mobile Postpartum Care Unit into a fully operational community model that reached mothers across 21 neighborhoods in 2025. Mothers experiencing homelessness, chronic conditions or limited resources received compassionate, coordinated care during one of the most vulnerable periods of their lives.

Key outcomes:

- 77 patients received care where they live
- Up to 6 additional postpartum touchpoints
- 81% completed six-week postpartum visits
- 79% completed postpartum GDM screening
- 76% received targeted hypertension car

Mental Health – More than one in five adults and one in seven youth experience a mental health condition each year, underscoring the need for accessible support. Along with the Foundation and through collaborations with community and nonprofit organizations, they meet individuals wherever they are and strengthen the quality, reach, impact and utilization of mental health resources. They focus on removing barriers, strengthening support systems and ensuring more people feel seen, understood and cared for.

Weather-related health impacts

Nearly half of all Americans live in a community with unhealthy air levels and more frequent extreme weather is exacerbating long-standing air quality issues. Through a collaboration with the American Lung Association, they are investing $3.5 million over four years nationwide to combat this health issue. Funding recipients are working to expand educational resources and increase access to care and supportive services for people with lung disease. They are also leveraging local air quality data to raise awareness of pollution concentrations so individuals can monitor daily air quality and adjust activities to protect their lung health.

Through their support of Americares, they are also helping communities with life-changing health programs, medicine, medical supplies and emergency aid.

Health-Related Social Needs

Health Zones - Health Zones is the Foundation's community-centered initiative that aims to improve health outcomes at the local level. The Foundation provides multi-year grants to local nonprofit organizations to help ensure easier access to the care, resources and support community members need to stay healthy. These nonprofits coordinate care, connect residents to critical health and social services and address health-related social needs — including chronic conditions, nutrition and access to primary care.

Food Security - CVS Pharmacy customers raised and donated more than $3 million for local food banks in 2025, adding to a Feeding America collaboration that has generated over $60 million since 2020.

We treat food as a core part of whole person health and granted $135,000 to Community Servings' Food is Medicine Coalition Accelerator Program to help nonprofits launch medically tailored meal programs for people living with serious illness.

Affordable Housing Investments - With a focus on addressing housing insecurity as a key social determinant of health, CVS Health is making significant investments in affordable housing across the country. In 2025, they invested $22.57M in Massachusetts.

In 2025, they expanded how programs like Workforce Initiatives and Project Health integrate directly into housing projects — bringing job training, health screenings and supportive services right to residents' doors. The result is housing that doesn't just provide shelter, but opens pathways to stability, opportunity and better health for thousands of families.

CVS Health affordable housing investments continue to demonstrate what's possible when health care, economic opportunity and community development intersect. This work remains a cornerstone of our mission to create a simpler, more connected health care experience to improve health outcomes.

Workforce Innovation Talent Centers - They manage Workforce Innovation and Talent Centers (WITCs) in cities across the U.S. Starting from a core foundation of trust, aligned values and a united mission, we work with dedicated community partners to customize their workforce development hubs to the specific needs of each community, incorporating education and skill development into effective workforce training.

To support both their company's growth and the communities they serve, they focus on attracting and equipping people of different backgrounds with pathways for careers at CVS Health and beyond. For example, they harness wisdom and experience from a vibrant labor pool aged 50+, who are starting later, returning to the workforce, or progressing into new opportunities. They proudly support veterans and military families in transitioning to civilian life, providing a sense of purpose through employment and volunteer activities and supporting health and wellness programs.

They work with over 370 disability employment partners to support individuals of all abilities in overcoming boundaries and unlocking their fullest potential through mentoring, simulated training, and advocacy.

Martha's Vineyard Hospital, Oaks Bluffs

Community Engagement

Their purpose-driven colleagues put their hearts into causes they care about, donating time and money to their communities: they help at food pantries, lead support groups and fundraise. For many of these organizations, the hours and in-kind support they receive through volunteerism are a major driver of their operations. That's why they are committed to supporting their colleagues who are passionate about giving back to their local communities.

Funded through the Foundation, their Volunteer Challenge Grant program supports nonprofit organizations where their colleagues donate their time, with grants ranging from $150 to $3,000. The more hours their colleagues give — starting with just 10 logged hours — the more support the nonprofit of their choice can receive from the Foundation.

CVS Health is working alongside Ronald McDonald House through a $600,000 grant to expand volunteer programs that support families with children receiving medical care. Colleagues nationwide are preparing meals, hosting activities and creating comforting spaces that help families find warmth and stability during difficult moments.

CIGNA CONNECTS CORPORATE RESPONSIBILITY REPORT
2025 Corporate Impact Report

Community Giving Program

Cigna's mission—to improve the health and vitality of those it serves—is reflected in its commitment to building healthier, more resilient communities. The company advances this work through The Cigna Group Foundation, corporate giving, and employee giving and volunteerism, with a focus on improving youth mental health, improving veteran mental health through housing stability, and reducing barriers to health equity.

The company advances this work through The Cigna Group Foundation, corporate giving, and employee giving and volunteerism, with a focus on improving youth mental health, improving veteran mental health through housing stability, and reducing barriers to health equity.

2025 Community Giving Initiatives

In 2025, charitable contributions through The Cigna Group Foundation, corporate giving, and employee giving and volunteerism totaled approximately $52.2 million. The Cigna Group Foundation selected 63 grantees across three grant programs supporting youth mental health, veteran mental health and housing stability, and health equity. The company also supported approximately 600 nonprofit organizations nationwide with more than $24.8 million in sponsorships and donations.

Employees logged nearly 114,000 volunteer hours in 2025, representing approximately $7.1 million in economic value. Employees also donated more than $3.3 million to causes of their choice, and The Cigna Group Foundation contributed nearly $3.8 million through matching gifts, healthy lifestyle participation, and employee volunteer rewards. In Massachusetts, 144 employees logged 635 volunteer hours during the year.

Community Contributions and Involvement

Cigna is proud to support numerous nonprofit organizations that are aligned with its mission of improving health, well-being, and peace of mind.

In Massachusetts, the company has focused on organizations that are addressing barriers to health and providing support to those with health challenges and access to preventive care for youth and family caregivers.

Cigna Foundation funding supported several community organizations in Massachusetts to advance programs, including:

- Taste of Perkins at Perkins School for the Blind – Perkins School for the Blind provides education for children and young adults who are blind and visually impaired with multiple disabilities. This event that they sponsor allows participants to use their other senses to get a "taste" of what it's like to try new foods without being able to see it first.

- Corporate Cup Challenge for Boston Children's Hospital – This event allows teams to come together for adult field day and raise money for children and families in need of medical procedures for complex diseases.

Through additional corporate charitable sponsorships, Cigna supported organizations benefiting Massachusetts residents, including Brigham and Women's Hospital Step Up for Stepping Strong, The Boys and Girls Club of Metro South, Hope & Comfort, Birthday Wishes, Girls on the Run Boston, Rodman Kids and more. Several of these charities were also included in the New England Sales Team's Day of Service.

2025 Community Giving

Commonwealth Care Alliance's (CCA) Community Giving reflects CCA's deep commitment to their roots in the Commonwealth and their unwavering commitment to support individuals in achieving the quality of life, independence, and health goals that are most important to them. CCA focuses charitable giving on those organizations whose missions align with CCA's to improve the health and well-being of people with the most significant needs, supporting a diverse range of local and national organizations that are committed to improving outcomes for the populations they serve.

In 2025, CCA supported mission-aligned organizations in communities across Massachusetts that advocate for or deliver services in support of the needs of those they serve, including: Boston Center for Independent Living, Health Care For All, Advocates, Somerville-Cambridge Elder Services, Boston Self Help Center, Disability Policy Consortium, Health Law Advocates, Central Boston Elder Services, NeighborHealth, Boston Senior Home Care, Bay Cove Human Services, AgeSpan, Northeast Independent Living Program and Vinfen.

CCA is proud of their long-term partnerships with community-based safety net organizations like Lynn Community Health Center (LCHC). 2025 marked CCA's eighth year supporting LCHC's Mobile Market, a food distribution operation in partnership with the Greater Boston Food Bank (GBFB), that provides on average 10,000 pounds of food to 450 households the first Saturday of every month.

Community Contributions and Involvement

CCA is committed to volunteerism as an extension of their work with community-based organizations, directed at helping the communities they serve. Their volunteer efforts reflect their employees' commitment to driving health and social partnerships.

CCA's Community Service Program affords all employees the opportunity for two paid days of volunteer work toward mission-aligned charitable organizations in their communities. In 2025, CCA employees volunteered their time in support of local organizations committed to advancing improvements in behavioral health, housing and food security, disability rights and senior living.

Additionally, during their two annual Day of Service events, employees contributed another 1,200 volunteer hours to organizations such as Habitat for Humanity, the Food Bank of Western Massachusetts Farms, the Brown Bag: Food for Elders program, and Community Servings.

Supporting Health Beyond Health Care

For nearly 50 years, Fallon Health has called Worcester home. As a not-for-profit health plan, they invest in programs and partnerships that address priority community needs identified through Community Health Needs Assessments and other regional planning efforts. Their focus includes improving access to nutritious food, helping older adults live safely and independently, and connecting children and families with essential support.

In 2025, Fallon Health contributed nearly **$1 million** through grants, sponsorships, employee volunteerism, and other community initiatives across Massachusetts. These investments address factors that influence health long before someone enters a doctor's office particularly for older adults, people with complex health needs, and underserved communities. While headquartered in Worcester, Fallon Health supports organizations serving urban, suburban, and rural communities across Massachusetts.

> *"Health starts long before someone enters a doctor's office. By investing in community organizations that address food insecurity, support older adults, and help children and families thrive, we're helping create healthier communities across Massachusetts," Cheryl Schmaltz, Community Engagement Manager, Fallon Health*

Expanding Access to Nutritious Food

Food security remained a leading focus of Fallon Health's community investment in 2025. Through financial support, employee-led initiatives, volunteer service, and partnerships with hunger-relief organizations, Fallon Health helped expand access to nutritious food for individuals and families across Massachusetts.

Highlights included:

- Fallon Health's employee-led Feed-a-Family program provided holiday meals for **560 families** across the organization's service area. Employees contributed food and gift cards valued at more than **$28,000**.
- Through the Strike Out Hunger campaign with the Worcester Red Sox, Fallon Health contributed **$50,000** to the Worcester County Food Bank. The food bank estimates that this support can generate approximately **$200,000 in food assistance**, equivalent to approximately **2 million meals**.
- Nearly **80 employees** volunteered at food banks and pantries across Massachusetts, sorting food and assembling backpack meals for children. Together, these projects helped provide the equivalent of more than **12,500 meals**.
- Fallon Health also supported community organizations working to improve food access, including **Jeremiah's Inn, Rachel's Table, the Pittsfield Community Food Pantry and the United Way of Tri-County**.

Fallon Health team members present $50,000 to the Worcester County Food Bank before a Worcester Red Sox game, a multi-year partnership that contributed $250,000 to fight hunger.

Established in 2014, Fallon Health's annual employee-led holiday food drive has provided nearly 5,000 meals across their service area.

Strengthening the Supports That Help People Live Well

Fallon Health works with community organizations to strengthen the resources people rely on every day. In 2025, the organization awarded nearly **$175,000 in grants** to more than **60 nonprofits** addressing social drivers of health. These investments supported healthy aging, housing stability, behavioral health, food security, and programs that help children and families thrive.

- **Central Massachusetts Housing Alliance**, supporting home repairs and safety modifications that help older adults remain safely in their homes.
- **YMCA of Central Massachusetts**, embedding licensed mental health consultants in preschool classrooms to support early intervention.
- **United Way of Tri-County**, strengthening community-based programs that address local needs across Middlesex County.

- **SPARK, an initiative of the Berkshire Regional Planning Commission**, promoting peer mental health support in local schools.
- **Rachel's Table**, rescuing and distributing nutritious food to individuals and families experiencing food insecurity across Western Massachusetts.

These partnerships reflect a broad view of health. Safe housing, nutritious food, social connection and access to timely support can all help individuals maintain their independence and quality of life.

Fallon Health visits Community Impact Grant recipient Pittsfield Community Food Pantry.

Community Impact Grants: *Since 2004, Fallon Health's Community Impact Grant program has awarded more than $2.6 million to nonprofit organizations addressing social drivers of health, including food security, healthy aging, behavioral health, and support for children and families.*

Showing Up Through Partnership

Fallon Health also provided nearly **$663,000 in sponsorships and philanthropic support** in 2025. This support helped community organizations deliver health and wellness programming, recognize volunteers and families, raise funds, and create opportunities for people to connect within their communities.

Activities included:

- Health and wellness programming that reached nearly **1,800 people**
- Tickets to Worcester Red Sox games, DCU Center events, and Hanover Theatre performances provided through nonprofit partners to recognize volunteers, celebrate clients and families, and support fundraising
- Support for community events, including **Pride Worcester** and the **Walk to End Alzheimer's**
- Employee expertise provided through consultations, speaking engagements, and service on community boards and committees
- Community partnerships that leveraged Fallon Health's expertise, visibility, and resources to expand local impact and support nonprofit organizations

Making an Impact Through Service

Fallon Health employees contributed **3,025 volunteer hours** connected to the organization's community investment priorities in 2025. Using the valuation applied in Fallon Health's community benefits reporting for the Attorney General, that service was valued at approximately **$189,305**. Employees supported food-security initiatives, older adults, youth programs, nonprofit organizations, and community events across Massachusetts.

WellSense Health Plan

Volunteer service included food bank and pantry projects, support for youth programs, community outreach and participation in Fallon Health's annual corporate giving campaign benefiting the United Way of Central Massachusetts. Through that campaign, employees contributed more than **70 volunteer hours** and helped raise more than **$31,000** for community programs and services.

2025 Community Giving Program Expenditures

Grants, direct and leveraged expenses, and staff volunteer time	**$252,854**
Sponsorships and philanthropic initiatives	**$663,092**
Total 2025 Community Giving in Massachusetts	**$915,946**

Rooted in Worcester. Focused on the Community.

Nearly 50 years after its founding, Fallon Health continues to invest in the communities it serves, guided by community needs and strengthened through partnerships with local organizations across Massachusetts. By working with local organizations, contributing financial support and sharing employees' time and expertise, Fallon Health helps strengthen the resources that individuals and families rely on every day.

The result is more than a record of dollars awarded or hours served. It is food on the table, greater support for older adults, earlier intervention for children, and stronger community organizations serving people across Massachusetts.

Community Giving Program

Health New England's mission, as part of Baystate Health, an integrated health care system, is to deliver compassionate, quality and accessible care — advancing our communities' health for all.

Health New England's Community Benefits strategy provides a structured, measurable approach to addressing priority health needs identified in the 2022 Community Health Needs Assessment. This strategy aligns with the organization's population health, clinical, quality, and health equity priorities while meeting regulatory requirements.

In 2025, Health New England reaffirmed its commitment to improving community health by reducing socioeconomic and health disparities and advancing equity. Through initiatives such as Community Benefit grants, and the Day of Caring Volunteer Program, Health New England strengthened partnerships and expanded its impact across the communities it serves.

> *In 2025, Health New England awarded $241,000 in grant funding towards advancing health equity to improve health or health care related needs in Western Massachusetts.*

In 2025, Health New England awarded $241,000 in grant funding towards advancing health equity to improve health or health care related needs in Western Massachusetts.

Community Impact Grants – Health New England awarded $176,000 in mini-grants to 49 local nonprofit organizations, an average of $3,500 per grant, to address health and health care-related needs in Western and Central Massachusetts. These grants supported initiatives targeting social determinants of health, including access to nutritious food, education, safe housing, health care, transportation, and opportunities for connection and belonging.

Long-Term Community Grant Commitments – Health New England strengthened its community giving and partnered with key local organizations to address health impacted by social determinants. In 2025, Health New England collaborated with long-standing partners – the Public Health Institute of Western MA and United Way of Pioneer Valley – to advance sustainable, community-driven solutions that promote health equity and well-being.

Community Benefit Forum – In November 2025, Baystate Health and Health New England convened four in-person Community Benefit Forums to strengthen partnerships, share system priorities, and present key insights from their Community Health Needs Assessments.

Health New England Team Members volunteer at Baystate Health Rays of Hope Event

Community Health Needs Assessment – In December 2025, Health New England completed and released the updated 2025 Community Health Needs Assessment (CHNA). The 2022 CHNA priorities were used as a baseline for the 2025 CHNA assessment, with a goal of reprioritizing quantitative and qualitative data, including community feedback and indicated changes. For the 2025 CHNA prioritization, health conditions were identified based on consideration of magnitude and severity of impacts, populations impacted, and rates compared to a referent (generally the state rate). In the 2025 CHNA, prioritized health needs were those that had the greatest combined magnitude and severity or that disproportionately impacted priority populations in the community. Quantitative, qualitative, and expanded community engagement data confirms that priorities from 2022 continued in 2025.

Community leaders and residents across the region were integral to the CHNA process, primarily through representation on the Regional Advisory Council (RAC), participation in interviews and focus groups, and involvement in community assessments and listening sessions conducted for other initiatives. Over 300 people were engaged in 2025 CHNA's.

Health New England's 2025 CHNA prioritized health needs include social and economic factors that influence health (i.e. lack of access and affordability of basic needs, education, income, environmental exposures), barriers to health care access, health behaviors and outcomes (i.e. mental health, chronic conditions). Further, Health New England prioritized two of the identified health needs for a deeper dive and additional data gathering: Maternal Health, and Mental Health/Substance Use Disorder. The 2025 CHNA focuses on inequities among youth, older adults, immigrants and refugees, and people experiencing poverty.

2025 Community Giving Program Expenditures

Direct Clinical Services	$19,500
Community-Clinical Linkages	$9,000
Total Population or Communitywide Interventions	$182,500
Infrastructure to Support CB Collaborations Across Institutions	$30,000
Total Community Giving Expenditures	**$241,000**

Community Contributions and Involvement

In 2025, Health New England Team Members contributed over 2,200 volunteer hours to community service initiatives. To deepen engagement, the organization launched its consecutive Day of Caring Program in August, creating meaningful opportunities for Team Members to give back.

Between August and October, 81 Team Members—representing 20% of employees—dedicated more than 240 hours in partnership with United Way of Pioneer Valley. Team Members also supported community events, including the Springfield Pride Parade, Springfield Puerto Rican Parade, and Springfield Stone Soul Festival.

Team Members also supported:

- Monthly meal service at Friends of the Homeless
- Veterans and military groups
- Gift donations to the Children's Study Home
- Fundraisers like the Baystate Health Foundation events, Children's Miracle Network Radiothon, and the Rays of Hope Walk/Run

Additionally, Health New England's leadership actively serves on the boards of numerous community organizations, sharing expertise and strengthening local partnership.

Community Benefits Program

Mass General Brigham Health Plan's Community Benefits Program is culturally responsive to the health and social needs of people throughout Massachusetts. Their program improves and maintains health status, promotes health equity for diverse populations, and expands access to health care in the communities they serve and beyond. They identify, develop, and support programs that meet the needs of underserved and vulnerable populations.

Everyone deserves equitable, affordable, and accessible care. That is why Mass General Brigham Health Plan is dedicated to supporting those in need through its Community Benefits Program, which includes:

- Interventions to address gaps in health care;
- Sponsorships and grants to strengthen community-based health care; and
- Community services for those in need.

Mass General Brigham Health Plan's Community Benefits Program is central to all that they do and reflects their commitment to addressing the unmet health and social needs of the communities they serve - a natural extension of their corporate mission. Their vision is to help create a world in which all people live healthier lives. They strive to create a better health system by removing barriers, providing no-nonsense solutions, innovating through partnerships, and delivering compassionate experiences.

2025 Community Benefits Initiatives

Mass General Brigham Health Plan continues to offer programs and services to the members of the Massachusetts community to ensure all members of the Commonwealth are able to live a healthy and active lifestyle.

Through the development and investment of informational and educational resources leveraging innovative partnerships with the Mass General Brigham Health System and

other service organizations within Massachusetts, Mass General Brigham Health Plan is able to make life changing impacts within the community.

In FY25, Mass General Brigham Health Plan distributed more than $400,000 to local organizations across Massachusetts through monetary donations, event sponsorships, and community partnerships. The organizations that Mass General Brigham Health Plan partnered with were aligned with the categories of need set forth by the Commonwealth Community Benefits program including housing instability, food insecurity, mental health and substance use disorders, and chronic diseases. Through donations to food banks and homeless shelters, Mass General Brigham Health Plan provided essential services to Massachusetts residents whose health and wellbeing were most immediately impacted by social determinants of health.

Mass General Brigham Health Plan has proudly partnered with and supported organizations that are focused on improving health outcomes as well as ones that facilitate new opportunities regarding education, employment, and stress reduction for members in the community. For example, Mass General Brigham Health Plan sponsored the Fight for Air Climb Boston to benefit the American Lung Association of the Northeast. Participants climbed 789 stairs to the 41st floor at One Boston Place to raise awareness and money to support research, advocacy and education for those with lung diseases and lung cancer. The vertical climb is meant to simulate the difficulties people living with breathing issues deal with.

Additionally, during the summer months, Mass General Brigham Health Plan hosts students from Cristo Rey Boston High School for an immersive educational experience. Students rotate through multiple operational areas across the organization, gaining exposure to the intersections of health care, business operations, community health, nonprofit work, and insurance administration. Through direct observation, hands-on participation, and professional mentorship, the program helps students build foundational workplace skills, explore potential career pathways, and develop a broader understanding of how health care organizations serve their communities.

Mass General Brigham Health Plan partnered again with the American Diabetes Association (ADA) and sponsored the State of Diabetes event held in Boston. The two-day event had 264 participants and brought together employers, advocates, and health professionals to share knowledge and strategies to help transform the lives of those with diabetes within the community and their caregivers. The event offered free access to health screenings, vaccinations, food served on site, and connecting attendees to resources within the community. In this gathering of community members, professionals had an opportunity to engage with an expert panel in discussions on leveraging ADA resources to address the landscape of diabetes and the financial impact on employers and their employees.

Mass General Brigham Health Plan supported behavioral health organizations throughout Massachusetts focusing on suicide and autism awareness. Mass General Brigham Health Plan recognizes that suicide is a major public health issue. Mass General Brigham Health Plan's mental health partnership extends to Samaritans Hope whose primary focus is on suicide prevention and the Doug Flutie Jr. Foundation for Autism.

Mass General Brigham Health Plan's commitment to providing autism services by partnering with various autism organizations in the Massachusetts community continued in 2025. Mass General Brigham Health Plan provided financial sponsorship to the Doug Flutie Jr. Foundation for Autism by sponsoring the annual Flutie 5K. Some of the Foundation's services include direct family grants, safety equipment distribution, and vocational advocacy. Mass General Brigham Health Plan also sponsored the Holiday Pops Sensory Friendly Concert at Symphony Hall.

The concert is designed for adults or families with children with an autism spectrum disorder or sensory sensitivities. Modifications include relaxed house rules, reduced volume and lighting levels, extra space for movement, available noise-reduction headphones, designated quiet room and support spaces, modified food concessions, and credentialed autism therapist volunteers on site.

In FY25, Mass General Brigham Health Plan continued to increase its support of organizations dedicated to treatment of substance use. Mass General Brigham Health Plan provided support to Fathers' Uplift which is the country's first mental health and substance abuse treatment facility dedicated to serving fathers and their families, and the Megan House Foundation providing residential treatment and sober living for women.

2025 Community Resources

Mass General Brigham Health Plan launched its Hydrate for Health campaign - a multi-faceted campaign designed to make free water readily available to the community while also educating the community about the essential health benefits of proper hydration. Access to clean,

Mass General Brigham Health Plan launched its Hydrate for Health campaign - a multi-faceted campaign designed to make free water readily available to the community while also educating the community about the essential health benefits of proper hydration.

free water was identified as a challenge, particularly in public spaces and underserved neighborhoods. Addressing this gap meant enabling all residents and visitors to the city to have convenient access to water.

Mass General Brigham Health Plan installed permanent hydration stations across Massachusetts, improving water access and community well-being while promoting sustainability. This initiative stands as a testament to bold innovation, inclusivity, and a commitment to fostering healthy, active lifestyles for all residents and their pets.

In just over 100 days, the Seaport hydration station dispensed more than 1,200 gallons of water - an average of 11.7 gallons per day. It has become a beloved stop for walkers, cyclists, dog owners, construction workers, and fitness enthusiasts alike.

Additionally, Mass General Brigham Health Plan provided education on the importance of overall health and hydration through a robust social media campaign and also sponsored community-based events focused on expanding access to wellness opportunities.

These community sponsorships feature hydration stations, which are in place on an ongoing basis throughout the year, and include:

- **Seaport Sweat:** The biggest free workout series in Boston, it offered access to a variety of new fitness classes and instructors on Seaport Common. Classes were free and open to the public for several months, welcoming all fitness levels.
- **Club Volo:** A sports league in Somerville's Assembly Row neighborhood that is home to 12 pickleball courts, four sand volleyball courts, and extra space for bocce and cornhole.

Finally, there was a growing interest in fostering a sustainable water culture throughout the region. By encouraging the use of reusable water bottles and reducing reliance on single-use plastics, the program aimed to instill long-term, environmentally conscious habits related to hydration.

Employee Engagement in Community Service

Mass General Brigham Health Plan's Helping Hands volunteer program was officially launched on National Volunteer Day, December 5, 2025. The annual organizational goal is for 2,000 volunteer hours. In FY25, Mass General Brigham Health Plan had 80 hours of volunteer time spent at Cradles to Crayons and the Cardinal Cushing Center. At Cradles to Crayons, the volunteer team supported their mission to end clothing insecurity for children in their community. They saw first-hand how the clothing donations are quality checked, sorted, packaged, and distributed to local children. The group worked in the "outfits" stage of the process, putting together packages for 3-6 month old girls consisting of a week's worth of outfits and onesies.

Community Contributions and Involvement

Mass General Brigham Health Plan continues to offer programs and services to the members of the Massachusetts community to help ensure that all members of the Commonwealth are able to live a healthy and active lifestyle. Through innovative programs with Mass General Brigham, investments in the organizations that serve their community and the development of informational and educational resources, they were able to make an impact.

In FY2025, Mass General Brigham Health Plan distributed over $437, 803 to local organizations throughout Massachusetts through sponsorships and donations. The organizations were aligned with categories set forth by the Commonwealth Community Benefits program including housing stability, food insecurity, mental health, substance use disorders, and chronic disease. Through donations to food banks, homeless shelters, and behavioral health organizations, they were able to provide essential services to Massachusetts residents whose health and well-being are most immediately impacted by social determinants of health.

Some of the organizations that Mass General Brigham Health Plan supported with financial donations this year included: Advocates, Alzheimer's Association of Boston, American Cancer Society in Massachusetts, American Diabetes Association New England, American Heart Association Boston, American Lung Association of Northeast, Asthma and Allergy Foundation of New England, Best Buddies of MA and RI, Boston Center For Independent Living, Boston Healthcare for the Homeless, Boston Senior Home Care, Boys and Girls Club of Dorchester, Bread & Roses, Bridge Over Troubled Waters, Casa Esperanza, Casa Myrna, Colon Cancer Coalition, Community Servings, Disability Policy Consortium, Doug Flutie Jr. Foundation For Autism, Eliot Community Health Centers, Ellie Fund, Family Health Center of Worcester, Fathers' UpLift, Food Bank of Western MA, Gandera Center, Greater Boston Food Bank, Greater Lowell Health Alliance, Habitat For Humanity – MetroWest/Greater Worcester, H2HC, Haley House, Holiday Pops Sensory Concert, HomeStart, Housing Families Inc., Joe Andruzzi Foundaton, March of Dimes, Merrimack Valley Food Bank, Old Colony YMCA Brockton, One Mission, Pine Street Inn, Provision Ministry, Raw Art Works, Reliant Foundation, Riverbend (formerly Lowell House), Room to Grow, Rosie's Place, Samaritans, Shine Initiative, Somerville Homeless Coalition, Teddy's Team, the Angel Fund, the Centre JP Food Justice Program, the Megan House Foundation, UMass Memorial Health, UTEC, Victory Programs, Wish Project, and Women's Lunch Place.

Community Benefits Program

The 2025 Community Benefits report for Point32Health represents reporting for Harvard Pilgrim Health Care, Inc., Tufts Associated Health Maintenance Organization, Inc. and Tufts Health Public Plans, Inc.

Point32Health, a regional payor, is committed to investing resources that promote the health and wellness of all populations in the communities they serve, especially those who experience significant barriers and live in communities with fewer resources.

They meet this commitment in large part through the dedicated resources of the Point32Health Foundation (the combination of Harvard Pilgrim Health Care and Tufts Health Plan Foundations), supported by company contributions, and their service and giving programs. Through this commitment, they demonstrate their values—being a good corporate citizen, and their purpose to guide and empower healthier lives.

The investments through their Foundation and organization are centered in community, relevant, flexible and inclusive. Inequities in our systems continue to cause health disparities in communities that have experienced disinvestment and have been overlooked. The company and its Foundation support nonprofit organizations that address equity in aging as well as other social determinants of health. Such organizations work with and in the community to improve the lives of older people, and to support, advocate and advance healthier lives for everyone.

Foundation resources support Point32Health's match and volunteer programs, to extend giving opportunities to a broad range of community initiatives and programs. Board members and employees of Point32Health companies are eligible to participate in these programs. In 2025, 49% of employees and 73% of board members engaged in volunteer and giving programs. Donations, fundraising and volunteer service, plus the Foundation matches, delivered more than $1.7 million to more than 700 nonprofits (80% was contributed to nonprofits serving Massachusetts communities). Through their work, these organizations align with their community benefits mission by promoting health and wellness in diverse communities throughout the Commonwealth. Point32Health companies also support community organizations and programs through volunteering, board service, event sponsorships, in-kind resources and other donations.

Point32Health's 30+ year partnership with the Harvard Pilgrim Health Care Institute, a research and teaching collaboration between Harvard Pilgrim Health Care, a Point32Health company, and Harvard Medical School, leverages cutting-edge research and education to advance health. The Department of Population Medicine at the Institute aims to improve health care delivery and population health through innovative research and teaching, with an emphasis on prevention and care. Their investment of $5.4 million in direct and in-kind resources to the Institute helps solve local, national, and international health care challenges.

For six years, Point32Health has earned national recognition for its focus on community. Named to The Civic 50 by Points of Light, the world's largest nonprofit dedicated to volunteer service, Point32Health is one of 50 companies nationwide named for superior corporate citizenship programs based on the 2025 reporting year.

This honor showcases the ways companies use their time, skills and resources to drive social impact in communities and within their companies. Point32Health was also ranked #18 on Boston Business Journal's list of Top Charitable Contributors in Massachusetts.

Upholding its commitment to corporate citizenship, Point32Health promotes and supports company service and giving initiatives in community as well as socially responsible business practices. These include employee civic engagement; inclusion and accessibility initiatives; employee development; environmental sustainability initiatives; high standards for governance, compliance and ethics, customer privacy, and satisfaction.

2025 Community Benefits Initiatives

In 2025, Point32Health and its Foundation invested $13.7 million in nonprofits. $8 million, 58% of total community investments, went to community organizations in Massachusetts. This included more than $4 million in direct grants to 59 organizations serving Massachusetts.

- The Point32Health Foundation began its focus on equity in aging which included a $15 million commitment over five years to support social and equitable initiatives.
- The Foundation is committed to community-centered approaches that focus on improved health outcomes for all and leadership within communities historically experiencing disinvestment and barriers to success.
- Support for systems change work including policy and narrative change strategies and increasing the capacity of grassroots organizations were maintained and aligned with each focus area.
- The Foundation offered expedited payments to multi-year grantees to address uncertainty in the current landscape.
- Twenty-five organizations with active Foundation funding received an additional technical assistance grant to strengthen organizational capacity for a total of $500,000 in support. Each grantee received a grant of $20,000. This included 10 organizations in Massachusetts.
- The Foundation supported the production of the updated *Massachusetts Healthy Aging Data Report* which was released in May 2025.
- The Foundation hosted multiple convenings - one with five healthy aging backbone organizations and another with 17 movement maker organizations. The backbone convening centered on strategies to strengthen community engagement and featured a discussion with two grantees – one from Boston and one from Rhode Island. Both organizations have robust community mobilization activities. The movement maker convening focused on sharing models and practices to shift power in philanthropy and peer learning.
- The Foundation also hosted two peer learning sessions open to all grantees. More than 45 grantees attended each. In addition to answering questions about the technical assistance grant opportunity, the team facilitated five breakout rooms based on relevant topics uplifted by grantees, including supporting staff wellness, collective action, strategic communications and board governance.
- Point32Health continued to support the Harvard Pilgrim Health Care Institute by providing $1 million in direct and $4.4 million of in-kind investment to support the Institute's research to improve health care delivery and population health. This investment helped raise $91.8 million in sponsored research grants.

2025 Massachusetts Community Benefits Program Expenditures

Grants	$4,103,792
Sponsorships	$1,116,863
Matching Gifts	$821,313
In-kind Donations	$232,036
Value of Employee Volunteerism	$400,390
Volunteer Stipends	$93,716
Direct investment to the Harvard Pilgrim Health Care Institute	$1,000,000
Additional Community Benefits	$175,040
Total Community Benefits Expenditures	**$7,943,150**

Community Contributions & Involvement

Because health starts where people live, work and play, Point32Health's 2025 Corporate Citizenship work continued to focus on life challenges impacting health and well-being. Programs support organizations advancing economic stability, food and housing security, neighborhood and built environment, education and other key drivers.

- In total, 49% of Point32Health colleagues gave or served in 2025. Point32Health's bi-annual Corporate Citizenship survey helped inform how employees want to engage in the community.
- The Foundation continued to offer meaningful ways for employees to engage in both in-person and virtual volunteer opportunities year-round.
- In total, more than 1,900 employees volunteered in 2025 completing 10,540 hours with nonprofits (89% with Massachusetts nonprofits). The monetary value (based on the nonprofit Independent Sector calculation) is more than $486,000 and enhances the impact of community organizations on the people they serve.
- Point32Health's annual Volunteer Week in June included opportunities for engagement with friends and family. During Volunteer Week, 1,300+ colleagues contributed 3,250 volunteer hours at 77 projects across 5 states in just three days.
- During the September 11 National Day of Service, Point32Health colleagues joined others across the nation to take back the day, turning the anniversary of 9/11 into a day of doing good. Nearly 100 colleagues volunteered across six projects by packing food, assembling hygiene kits, lending a hand with fall clean-up efforts and more.
- As part of Point32Health's work to increase the number of employees serving on nonprofit boards, the Corporate Citizenship team offered nonprofit board service training in partnership with United Way of Massachusetts Bay and Merrimack Valley. Fifty-two colleagues received certificates for their participation in the four-session Board Connection series.
- Updates to Point32Health's Match Program were rolled out to lower the threshold for engagement, streamline the program and increase engagement. The Match Program amplifies colleague service and giving with qualified nonprofits in the five core states they serve. This continued to include support for employees who live outside the region and give or serve in their local communities as well as organizations beyond the five core states that serve communities affected by disasters.
- In total, more than $1.7 million was donated to 700+ local nonprofits through Point32Health's Match Program in 2025 (approximately 80% was directed to nonprofits serving Massachusetts communities). The program includes incentives in the form of a double match for donations to organizations addressing priority areas of food and housing security and mental health as well as the Point32Health Employee Needs Fund.
- The Point32Health Employee Needs Fund helps employees in the organization cope with unexpected financial hardships. In 2025, employees in need of financial support received grants totaling more than $91,000.
- #GivingTuesday generated more than $1.2 million to community – in just one day. Donations to nonprofit organizations from colleagues and board members surpassed $390,000. With a double match from the Foundation, more than $1.2 million was contributed to more than 425 nonprofits (64% went to organizations serving Massachusetts communities). On this global day of giving, more than 100 Point32Health colleagues also contributed more than 175 hours with eight nonprofit organizations.
- Point32Health's Colleague Resource Groups (CRGs) bring together co-workers with common affinities. They support and promote community, allyship and an inclusive work environment. Through a grantmaking collaboration between the Foundation and the CRGs, the Foundation provided training in philanthropy and

introduced opportunities to support community organizations doing work aligned with CRG affinities and focus areas. Leaders of Point32Health's nine CRGs worked with the Foundation to identify and recommend community nonprofits for funding. Each organization received a $10,000 grant, double what was granted by the colleague-led initiative in 2024, for a total of $90,000 to community organizations. In addition to the grants, colleagues also engaged with the organizations through volunteer service and/or speaking engagements. All Point32Health CRGs and their events are open to all colleagues employed by Point32Health.

- In 2025, Point32Health gave more than $1.4 million in corporate and Foundation sponsorship support for nonprofit fundraising events and programs in communities the organization serves (78% with Massachusetts nonprofits).

- Colleagues participated in 12 Walk to End Alzheimer's events across New England and in additional communities where their affiliate organizations are based. Colleagues also participated in a caregiving learning event with representatives from the Alzheimer's Association and a mini-golf tournament at their Canton, Mass. office to raise awareness and money for people living with Alzheimer's and other dementias. The Point32Health team raised more than $64,000 to support vital programs, including advocacy for those impacted and research to advance treatments. With the Foundation match, more than $128,000 was contributed to the cause. Since 2012, Point32Health walk teams have raised more than $2.1 million to support research, programs and services of the Alzheimer's Association.
- Point32Health expanded its annual participation in walks supporting the National Alliance on Mental Illness (NAMI) to help shine a light on the importance of mental health for all. More than 80 colleagues, friends and family engaged by walking, donating and/or participating in a 3v3 basketball tournament for the cause. With a Foundation match, more than $7,200 was contributed to promote awareness of mental health issues, support NAMI's top-rated programs and build community by letting people know they are not alone.

- Point32Health deepened its partnership with Special Olympics Massachusetts (SOMA). Through donations of time and money, colleagues contributed meaningfully to SOMA's mission to build a community where individuals with intellectual disabilities can showcase their skills, nurture social connections and live their best lives. A highlight of the year was the Polar Plunge hosted at their Canton, Mass. office. Through colleague fundraising and a match from the Foundation, $41,000 was contributed to the cause. Colleagues also participated in a torch run to kick off SOMA's summer games, quarterly presentations of the Tufts Health Plan Healthy Hero Award to a SOMA athlete, and several other volunteer opportunities at the organization.

- Recognizing that changes to the Supplemental Nutrition Assistance Program (SNAP) and other critical nutrition programs would disrupt benefits and intensify food insecurity across the communities they serve, the Foundation stepped up to meet the moment. Point32Health Foundation donated $5,000 to the Canton Food Pantry, Community Servings, Food Bank of Western Massachusetts, Greater Boston Food Bank, Merrimack Valley Food Bank, Worcester County Food Bank and each of the food banks in the other states they serve, for a total contribution of $50,000. This is in addition to the more than $2 million in grants distributed in 2025 to organizations advancing solutions to end hunger and increase access to healthy food throughout the region.
- In conjunction with Point32Health's December Town Hall, the organization offered an opportunity for colleagues to support individuals and families experiencing food and housing insecurity. Colleagues generously donated 430 lbs. of non-perishable food items for the Canton Food Pantry and 48 lbs. of warm clothing items for Women's Lunch Place.
- With the closing of Point32Health's on-campus health center, the Foundation and Corporate Citizenship team helped facilitate donations of medical equipment, including exam beds, medical refrigerators, an EKG machine and other smaller equipment like stethoscopes and thermometers. Valued at more than $20,000, the supplies went to Senior Connection in Worcester to support the expansion of its rural mobile health and outreach clinic, and University of Massachusetts Lowell for its Community Health Hub.
- Colleagues from across the organization participated in the Read to a Child program throughout the 2025–2026 school year. This program is designed to spark a love of reading with elementary school students in under-resourced communities in Greater Boston. Read to a Child is a 30-minute weekly read-aloud experience — occurring either in person or virtually during the child's lunch period.
- An internal event and service project to celebrate the legacy of Dr. Martin Luther King Jr. took place in Point32Health's Canton office. Colleagues created teen mental health kits for distribution to students served by Boston-based Girls LEAP.
- Thirty-eight Point32Health employees ran the Boston Marathon, raising more than $75,000 for 29 local nonprofit organizations. An additional 75 colleagues volunteered to represent Point32Health during the weekend festivities, supporting runners and fans in the community.

- To celebrate Earth Month, Point32Health colleagues stepped up to serve our planet and the people on it. Twenty-five colleagues volunteered to clean up trails and recreation areas with Friends of the Blue Hills and another 24 created environmental-themed kits for the Happy Hope Foundation to deliver to children at Brockton Hospital, Signature Medical Group. Point32Health also hosted a panel discussion with representatives from Friends of the Blue Hills and Boston Area Gleaners on the importance of outdoor spaces and working at the intersection of farming, food waste and food access.
- Point32Health recognized employees for volunteerism at its Community Spirit Awards.
- Point32Health continued to offer nonprofits the use of conference space and outdoor fields at the Canton, Mass. headquarters. This in-kind giving as well as other donations of furniture, essential items and other needed supports was valued at $250,000.

Community Giving Program

Senior Whole Health by Molina Healthcare continues its mission of helping Massachusetts seniors who qualify for both Medicare and Medicaid remain healthy, independent, and connected to their communities. As part of Molina Healthcare since 2021, the organization combines coordinated care with strategic community investments that improve health outcomes and quality of life.

2025 Community Giving Initiatives

Supporting Community Organizations

In 2025, Senior Whole Health by Molina Healthcare and The MolinaCares Accord together contributed $900,000 to support community and charitable organizations throughout Massachusetts, including Hebrew Senior Life, Boston Senior Home Care, Coastal Foodshed, The Alzheimer's Walk Association, Health Care For All, and Coastline Elder Services.

> *In 2025, Senior Whole Health expanded its commitment to Place-Based Services (PBS) from 8 sites to 10 sites total, investing more than half a million dollars to promote healthy aging in place for seniors residing in subsidized housing communities.*

Investing in Place-Based Services

In 2025, Senior Whole Health expanded its commitment to Place-Based Services (PBS) from 8 sites to 10 sites total, investing more than half a million dollars to promote healthy aging in place for seniors residing in subsidized housing communities.

These investments are designed to improve quality of life by addressing social determinants of health and include:

- Regular fitness classes to keep seniors active and engaged.
- Mobile markets and breakfast programs to ensure access to nutritious foods and reduce food insecurity.
- Regular blood pressure screenings to support ongoing health monitoring.
- Mobile vaccine clinics to provide convenient access to preventive care.
- Mobile medical services, including audiology and foot care services, to make specialized care accessible directly within senior housing communities.

Through PBS, Senior Whole Health aims to reduce social isolation, improve access to health care services, and reduce food insecurity, all of which help drive better health outcomes for seniors in their communities.

Academic & Clinical Partnerships

In 2025, Senior Whole Health proudly partnered with the UMass Dartmouth School of Nursing. Nursing students and faculty have helped staff their blood pressure clinics and provided disease management education to residents at PBS sites, further strengthening the wraparound care and education available to seniors.

Mobile Health Unit

A cornerstone of Senior Whole Health's outreach is their Mobile Health Unit, a fully equipped medical exam room on wheels. The unit travels across Massachusetts communities to bring health care directly to where seniors live. It serves multiple purposes, including:

- Providing blood pressure screenings.
- Delivering vaccinations to make immunizations more accessible to vulnerable populations.
- Acting as a distribution site for their mobile markets, ensuring convenient access to fresh, nutritious food.

By reducing transportation barriers and bringing care directly to communities, the Mobile Health Unit strengthens their PBS efforts and supports their mission of improving access to health care, reducing isolation, and addressing food insecurity.

Additional Community Involvement

Beyond financial contributions, Senior Whole Health employees continue to volunteer their time in communities across the Commonwealth. In 2025, their staff:

- Contributed 974 hours of volunteer time.
- Assisted with the Greater Boston Food Bank telethon phone lines, helping raise funds to support millions of meals for Massachusetts residents in need.
- Supported and sponsored the Walk to End Alzheimer's, providing resources, healthy snacks, and encouragement to participants.
- Participated in the New Bedford Connect event, offering services, resources, and outreach to community members experiencing homelessness or in need of support.
- Assisted Easterseals with renovating and maintaining the Bridge center, which provides year-round recreational and equine-assisted programs for individuals with disabilities.

These efforts reflect their employees' deep commitment to advancing Senior Whole Health's mission of improving health and quality of life in the communities they serve.

Community Giving Program

The United Health Foundation is committed to developing and supporting innovative and evidence-based activities that help the health system work better. The foundation identifies meaningful partnerships and initiatives that have the potential to be scaled, leading to improved access to care, better health outcomes, and healthier communities.

In addition to the United Health Foundation, UnitedHealth Group entities operating in Massachusetts, including United Healthcare Employer & Individual, UnitedHealthcare Community & State, and Optum, partner with local nonprofits to support and give back to their communities.

> *In 2025, UHG and its employees contributed $1.9 million to philanthropic efforts across the Commonwealth and employees volunteered 116,000 hours giving back to their local communities.*

2025 Community Giving Initiatives, Expenditures and Involvement

In 2025, UHG and its employees contributed $1.9 million to philanthropic efforts across the Commonwealth and employees volunteered 116,000 hours giving back to their local communities. Contributions and volunteer support were provided to organizations throughout Massachusetts, including:

- Alzheimer's Association
- Healthfirst Family Care Center
- Jewish Healthcare Center
- Massachusetts Wonderfund
- South Middlesex Opportunity Council

In addition, UnitedHealth Group provided $138,000 in scholarship support to 24 Massachusetts participants in the United Health Foundation Health Care Scholars program.

Wellpoint's Community Giving Program

Wellpoint, its charitable arm, the Wellpoint Foundation, and the company's associates have deep roots in the Massachusetts communities where they live and work. They are committed to improving lives and the health of local communities and helping build a stronger and healthier Massachusetts. Through partnerships with nonprofit and community organizations across the Commonwealth, Wellpoint supports programs that address local needs, expand access to resources, recognize those who serve others, and create meaningful opportunities for individuals and families to thrive.

2025 Community Giving Highlights

Guided by its mission to create a healthier generation of Bay Staters, Wellpoint partnered with nonprofit and community organizations across Massachusetts in 2025 to help address local needs and strengthen the communities it serves. Areas of support included:

Wellpoint supports programs that help individuals and families access nutritious food through charitable giving and volunteerism. In 2025, this included support for organizations and initiatives such as the Giving Garden in North Andover and the Dunstable-Tyngsboro Lions Club Thanksgiving Baskets Drive, among others.

Improving access to nutritious food — Food insecurity remains one of the most common unmet social needs in the U.S. Wellpoint supports programs that help individuals and families access nutritious food through charitable giving and volunteerism. In 2025, this included support for organizations and initiatives such as the Giving Garden in North Andover and the Dunstable-Tyngsboro Lions Club Thanksgiving Baskets Drive, among others.

Recognizing those who serve our communities — Wellpoint is proud to recognize and support the public servants and community members who dedicate themselves to helping others and strengthening their communities. Through initiatives such as Hometown Heroes, sponsorship of statewide honors recognizing outstanding teachers and school counselors, and support for the State Police Association of Massachusetts Benevolent Fund, Wellpoint celebrates those who make a meaningful difference in communities across the Commonwealth.

Responding to local community needs — Every community has unique needs, and Wellpoint works with local organizations to support programs and services that make a difference for the people they serve. In 2025, Wellpoint supported organizations including the American Lung Association's Fight for Air Climb Boston, the Joseph N. Hermann Youth Center in North Andover, Ciclovia in Lawrence (bike helmets for kids), the Bilingual Veterans Outreach Centers of Massachusetts in Springfield, and Fisher House Boston, among many others.

2025 Community Giving Expenditures

Total 2025 Community Giving in Massachusetts.....$770,000

Community Engagement

Wellpoint associates believe that giving back is not only a privilege, but also a responsibility to make a positive impact on the individual lives they touch and the broader communities in which they operate. The company fosters a culture of service by allowing associates to use up to eight hours of paid time off to volunteer. Associates can also earn financial rewards, which they can direct to nonprofit organizations in exchange for their volunteer hours and receive matches for contributions to a number of health-related nonprofits, dollar for dollar, up to an annual maximum match of $5,000.

In 2025, Wellpoint associates spent 2,473 hours volunteering in Massachusetts communities.

Wellpoint associates packed canned food items at a volunteer project with Somebody Cares New England in Haverhill.

Wellpoint donated $10,000 to Lowell High School in recognition of Tara Goodhue, the 2026 Massachusetts Teacher of the Year.

Community Giving Program

WellSense Health Plan is dedicated to educating the public about affordable health care programs, supporting local organizations, and expanding health equity throughout the communities they serve. They work directly with local charities and community health centers to focus outreach efforts on initiatives serving populations whose health is disproportionately impacted in a negative way by social determinants of health.

> *WellSense provided over $670,000 in direct member support through our Members Extras program, which includes providing items like dental hygiene kits, child safety equipment, diapers and fitness reimbursements.*

Over $1M in direct member support — WellSense provided over $670,000 in direct member support through our Members Extras program, which includes providing items like dental hygiene kits, child safety equipment, diapers and fitness reimbursements.

Through partnerships with local housing authorities, they also provided over $385,000 in targeted support to address housing insecurity and homelessness for our MassHealth members most at risk. Through these partnerships, they provided financial housing assistance, Section 8 housing navigation, legal advocacy to members facing potential eviction, and offered other support services designed to help members stay in their own homes. In addition, they advocated for state and city policies that address homelessness.

Over $20,000 in community support — WellSense has a long history of working with community and social service organizations dedicated to serving the needs of populations facing adversity in achieving and maintaining good health. They collaborate with many local, culturally focused organizations that act as voices for these populations across the state. In 2025, they provided over $20,000 in sponsorship dollars and participated in several community events across the Commonwealth, including:

- Haitian Flag Day
- Boys & Girls Club's Boston Wellness Day: Building a Healthier City for All
- Puerto Rican Festival of Massachusetts
- Door of Salvation Community Health Fair
- Lowell Community Health Center Health Fair
- Quincy Asian Resource Inc.'s August Moon Festival
- Samaritans 5k
- South Coast Cancer Care Nicole Podkowa 5k
- Boston Pride for the People

Company employees also donated and volunteered their time to provide over $2,000 in holiday gifts to low-income families with children through a partnership with Interfaith Social Services.
